Adults & Seniors Monthly Meeting

Learn how past lives may affect you and your relationships. Before birth we select aspects of our personalities, such as preferences, habits, talents, and challenges. We also choose our family members and factors such as our occupations and where we will live. Marie will explain how past lives have affected her and her family.

Marie has a Master's degree in psychology, and she has taught at various colleges and universities. She has spent the past 30 years researching the topic of reincarnation. This led to the publication of her first book, *Shadows on My Mind: A Psychologist Explores Reincarnation and PSI*. Marie has directed a writers' group for 24 years.

This will be followed by discussion on Acceptance of Reincarnation in America
